

## LET'S DO THIS.

Do people ever ask you *why* you do what you do? Farming is hard work. And there are lots of obstacles.

We get that. But we also know that you're doing what you love. And a visit to the fair reminds everyone why agriculture is so important to Worcester County.

There's nothing we'd rather do than provide financing to farmers across Delmarva. For over 100 years, we've been helping rural America grow great things—whether it's crops, or cattle, or kids.

So, give us a call. Together, we can help you keep doing what you love.

**FARM CREDIT**
